Now that the Senate Finance Committee has voted unanimously, 26-0, to have Congress kill the "stretch IRA," it appears likely that the federal government will put an end to what has been the greatest tax break for retirement accounts in U.S. history. No longer will your heirs be able to defer tax on inherited IRA benefits.

The Finance Committee voted to pass a law that could reduce your IRA and retirement plan by 1/3rd—or even more—after you die. Just think about how many years you worked and contributed to your IRA and 401(k)—and now Congress wants to take away a third of it after you pass. Though the Senate Finance Committee doesn't have the force of law yet, we believe it could pass in 2018, potentially even sooner.

The good news is we have discovered 5 little-known wealth protection strategies that can dramatically reduce the impact of these devastating changes in the tax laws. It is much better to start implementing these strategies now rather than waiting for the law to pass. I am prepared to share them with you in a new workshop, *How to Stop Pending Changes in Tax Laws from Taking Up to 1/3rd of Your IRAs and Retirement Plans*.

I will also be presenting two of our "classic" workshops on trusts and low-cost index investing that I am sure you will find interesting, profitable—and perhaps even life-changing!

"Our aim is not to JUST outperform competitors. It is to offer a quantum leap in value that makes the competition irrelevant."

— James Lange, CPA, Attorney

Who Says You Can't Control From the Grave? Using Trusts to Protect Your Family

The Problem and Solution of Naming Trusts as the Beneficiary of an IRA or Retirement Plan

Are your kids fiscally conservative and financially responsible? Do they save sensibly or overspend on luxuries and toys they can't really afford?

You won't always be around to make sure your children, their spouses, your grandchildren, and your other heirs are fiscally prudent with the inheritance you leave them. But by using Trusts, as Jim shows you in this workshop, you can maintain control over your wealth, and ensure your heirs hang on to it and use it responsibly, long after you are gone.

Another issue addressed in depth in this workshop is whether it is worth it to go through the extra time, effort and expense of avoiding probate.

Worried that your no-good son-in-law will divorce your daughter and

walk away with half of the money you left her? Learn about the "I don't want my no good son-in-law to inherit one red cent of my money," Trust. Want to stop your grandson from blowing his inheritance on a Porsche when he is 21? Learn about Trusts to protect younger beneficiaries from irresponsible spending.

This workshop addresses the Trust strategies that can keep your wealth intact and help protect your heirs from their creditors and their own poor judgement. Trusts for adult children, however, are often not appropriate—and this workshop helps distinguish when you should and should not have a Trust.

SESSION 2: 1:00 – 3:00 PM

How to Stop Pending Changes in Tax Laws from Enabling the IRS to Legally Take Up to 1/3rd or More of Your IRAs and Retirement Plans

By combining Optimal Retirement Planning, Social Security Optimization, Strategic Roth IRA Conversions, Appropriate Trusts, Gifting Strategies and Low-Cost Index Funds You Can Keep Your Wealth in Your Family... and Out of Uncle Sam's Hands!

Since January 2001, the IRS has permitted beneficiaries—both children and grandchildren—to stretch distributions of the money from inherited IRAs over their lifetime.

By paying the income taxes on relatively modest annual distributions for many years, your legacy continues to grow, tax deferred.

Known as the "stretch IRA," this loophole has long been the greatest opportunity taxpayers had to pass on their wealth to heirs relatively intact and with a minimum of taxation on the estate.

And now, late in the game, Congress wants to change the rules and WIPE OUT potentially 1/3rd of your IRA within 5 years of your death!

That's right, after decades of reckless spending, Washington bureaucrats

have piled up more than \$19 TRILLION in debt—over \$63,000 for every man, woman and child in America. And now they want YOU to bail them out!

Jim Lange was one of a handful of financial advisors to predict the end of the stretch IRA was close at hand, which he did in three articles published in the January and February 2016 and June 2017 issues of the peer-reviewed tax journal, *Trusts & Estates*.

And sure enough, the government has now officially pounded the first nail into the stretch IRA's coffin: The Senate Finance Committee voted 26-0 to ask Congress to kill the unlimited stretch IRA.

The elimination of the stretch IRA appears very likely. Senate Finance Committee Chairman Orrin Hatch is pushing for approval. Congress needs to fund some of the tax cuts for the wealthy by hitting middle class taxpayers who leave their IRAs to their children.

Once passed, your beneficiaries would have to pay taxes on retirement accounts they inherit within 5 years of the owner's death, with an exemption of \$450,000. The good news is that the new law does not apply to surviving spouses, only to most other heirs.

The tax payments under the new law proposed by the Senate could be financially devastating to your beneficiaries as the larger distributions could be taxed at the highest tax rates, currently 39.6%.

In this workshop, Jim shares important steps you can take to reposition your retirement and estate plans for the imminent end of stretch IRA protection—and potentially keep hundreds of thousands of extra dollars of your wealth in your family.

SESSION 3: 3:15 – 3:45 PM

What Makes More Money? The S&P 500 or Active Money Managers?

* Past performance is no guarantee of future results. All investing involves risk, including the potential for loss of principal. There is no guarantee that any strategy will be successful. Indexes are not available for direct investment.

Another great strategy to build your retirement wealth and estate: invest in no-load, low-cost, well-diversified, and tax-efficient index funds. Our preferred sets of funds, **Dimensional Fund Advisors (DFA)**, were previously only available to institutional investors.

In fact, *only 0.15% of asset management firms are approved to offer clients access to these funds.* **Lange Financial Group** is one of them, enabling our clients to own Dimensional Fund Advisor Funds.

Over the long term, we believe DFA index funds will have an advantage over their Vanguard counterparts, even after subtracting a modest 1% annual management fee.

Paul Merriman, a well-known retired investment advisor who used both Vanguard and DFA during his career, has said that he has his own

money in DFA funds for two reasons. First, he likes the wide array of DFA investment options. Secondly, DFA funds come with an accredited expert personal advisor for custom-tailored asset allocation and balance of your portfolio.

In our case, clients also receive a thorough "running of the numbers" to gain crystal clarity on important retirement and estate planning decisions, including Roth IRA conversion planning, estate planning, Social Security planning, how much you can spend without running out of money, and other otherwise complex and confusing questions. So you can confidently strive to maximize your returns at a risk level that you are comfortable with while taking steps to protect your wealth.*
